DETAILED OFFICE ACTION

Applicant's response filed on 11 September 2003 is acknowledged.

Currently, claims 44-46, 50 and 51 are pending and under consideration.

Rejections Over Prior Art:

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 C.F.R. 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(f) or (g) prior art under 35 U.S.C. 103(a).

Claims 44-46, 50 and 51 remain rejected under 35 U.S.C. 102(a) as being anticipated by, or, in the alternative, under 35 U.S.C. 103(a) as obvious over Gebe et al., WO 98/39443 (11 September 1998), for the reasons of record set forth in the last Office Action, paper No. 17, mailed on 05 August 2003, at pages 3-4.

Applicants argument, filed on 11 September 2003 has been fully considered, but is not deemed persuasive for reasons below.

Art Unit: 1646

At page 7 of the response, the applicant argues that there is no sequence error, thereby confirming that the last amino acid at position 347 of the instant sequence is Val. Additionally, applicant submits Exhibit A, which compares the amino acid sequence encoded by the presently claimed nucleic acid with that encoded by the nucleic acid of the prior art reference by Gebe, and indicates that the instant sequence SEQ ID NO:147 and Gebe's sequence are splice variants. Applicants argument and the exhibit have been fully considered, but they are not persuasive because Exhibit A merely shows sequence comparison, and the Examiner was well aware of such a difference between the two sequences. Therefore, Exhibit A is not considered as proper evidence that can be used to overcome the rejection. Applicant is advised to submit formal affidavit or declaration Under 37 CFR 1.132, including the evidence indicating the difference between the two sequences.

Conclusion:

No claim is allowed.

Advisory Information:

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
